Temporary Truck Bypass Northwest of Williston now open

The North Dakota Department of Transportation (NDDOT) has opened the temporary truck bypass northwest of Williston. The truck bypass is 16 miles in length and utilizes County Roads 1 and 6.

The County Road 1 bypass entrance is located approximately 8 miles west of Williston on US 2. The County Road 6 bypass entrance is located approximately 5 miles to the north of Williston on US 2.

This new temporary truck bypass will help provide immediate relief from traffic congestion and will help alleviate traffic on US 2/85 through the city of Williston while a permanent solution is developed.
